

IFEJIOFOR CHIBUIKE DAVID

Software Engineer | AI Integration Engineer | JavaScript
Nigeria, Lagos | +2348030743472 | [GitHub](#) | [Email](#) | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Software Engineer & AI Integration Developer with 1–2 years of hands-on experience building scalable, high-performance web applications using **JavaScript, TypeScript, React, Next.js, and Node.js**. Demonstrated ability to design and integrate RESTful APIs, architect full-stack systems, and implement AI-powered features into real-world products. Experienced in agile, cross-functional environments with a strong focus on clean code, system reliability, and timely delivery. Brings a rare combination of solid software engineering fundamentals and practical AI integration expertise — able to contribute meaningfully from day one

SKILLS

Languages & Frameworks JavaScript, TypeScript, React.js, Next.js, Node.js, HTML5, CSS3

AI & Integration Vercel AI SDK, Google Gemini API, Generative UI, Server-Side Tool Calling, Zod Schema Validation

APIs & Backend RESTful API Design & Integration, Server-Side Rendering (SSR)

Database & Storage Firebase

Tools & Platforms Git, GitHub, Vercel

Methodologies Agile, Scrum, Sprint Planning, Cross-functional Collaboration

PROJECTS

[AskTechBro](#) – AI-Powered Mentorship Chatbot | Personal Project

May 2026

- Built and deployed a full-stack AI chat application using **Next.js 14 (App Router)** and **TypeScript**, integrating the **Groq API (Llama 3.3 70B)** to deliver real-time, streaming mentorship responses tailored to African developers navigating code and tech careers.
- Engineered a **server-side streaming architecture** with Next.js API routes to handle live AI responses while keeping API credentials secure, demonstrating practical understanding of full-stack security and data flow.
- Implemented **persistent conversation history** and real-time React state management, delivering a seamless, mobile-responsive chat experience with a distinctive persona-driven UI built in Tailwind CSS.

[Nexus Ecom App](#) – Software Engineer | ALX

December 2025 – February 2026

- Independently built and deployed a fully functional e-commerce application using **Next.js, TypeScript, and Node.js**, demonstrating end-to-end ownership from development to production.
- Designed and integrated **RESTful APIs** to handle products, users, and transactions — including consumption of external data sources — ensuring reliable and seamless frontend–backend communication.
- Optimized application performance through **Server-Side Rendering (SSR), lazy loading, and efficient data fetching strategies**, improving page load speed and overall user experience.
- Maintained clean, structured code throughout using **Git** for version control, ensuring a reviewable and scalable codebase.

[Tourism App](#) – Project Manager | ALX

August 2025 – September 2025

- Led agile ceremonies including daily stand-ups and sprint planning for a **cross-functional team of 4–6**, improving task visibility and team coordination across the project lifecycle.
- Conducted structured user research and requirements gathering to define core product features, translating findings into actionable development priorities.
- Delivered a validated MVP concept with documented insights, ensuring the team shipped a focused, well-scoped product within the project timeline.

PROFESSIONAL EXPERIENCE

Assistance Lecturer

July 2021 - July 2022

Airforce Institute of Nigeria – Kaduna, Nigeria

- Delivered technical lectures on **Electronics & Computer Engineering** concepts to a diverse cohort of 70+ students, adapting communication style to varying levels of understanding.
- Provided structured, actionable feedback on student work, helping identify knowledge gaps and accelerate individual learning outcomes.

Founder

August 2022 - May 2025

AdoBros Enterprise – Kaduna, Nigeria

- Grew client base by **40% within 12 months** by identifying customer pain points and delivering tailored solutions — demonstrating analytical thinking and structured problem-solving.
- Translated complex product specifications into clear, client-facing presentations, developing strong communication and stakeholder management skills applicable in cross-functional engineering teams.

EDUCATION

Nnamdi Azikiwe University – Anambra, Nigeria

Sep 2014 – Nov 2019

B.Eng. Electronics and Computer Engineering

CERTIFICATIONS

ALX ProDev Front-End Engineering | Completed 2026 ALX Africa

Intensive hands-on software engineering training covering full-stack development, APIs, and agile practices.

JavaScript Algorithms & Data Structures | FreeCodeCamp

Covers core programming logic, data structures, and algorithmic thinking.

Responsive Web Design | FreeCodeCamp

Covers HTML5, CSS3, and modern web layout principles
